MEMORANDUM FOR: Chief, SR/2  
SUBJECT: [ ] proposal in OSSA 11581 of 29 June 1962

1. [ ] proposal to assist the Soviet study group organized in 1961 by Doctor Bruno Kalnins, is one of the most interesting opportunities to infiltrate Western intellectual circles concerned with Soviet studies that I have heard of. According to [ ] the Soviet study group represents an opportunity to exert strong influence over a long period of time on the men who will be Sweden's most influential Soviet experts in the future and on some of those who have such reputations today. I find that for this reason alone that they make suggestions for support, to an amount to approximately \$1000 a year, are justified. Naturally there are PI possibilities in the project as well. I urge you to read [ ] meticulously written dispatch carefully. I should like very much to review his proposals with him when he arrives here.

2. I discussed the matter with [ ] who points out that there are certain operational problems to be resolved in putting [ ] proposals into effect and who would also like to participate in any discussions of the matter with him here.
